Easy-to-use coverage that fits your budget

Aetna Dental[®] DMO[®] Plan

A primary care dentist (PCD) helps guide your care

What to do

Pick a PCD from the Aetna network.**

To find one, use our online directory at www.aetna.com.

Visit your PCD.

You need to visit a PCD in the Aetna DMO network. Otherwise, you could end up paying more.

How the DMO* benefits and insurance plan works

- Your DMO plan begins with your PCD.
- See your PCD for regular exams and to get referrals if you need specialty care.
- Covered family members can pick their own PCDs, too.
- You can change your PCD once a month. Switch by the 15th day of the current month. The change will be effective the first day of the next month. Call Member Services for help.**

- Give your personal information at your visit.
- Pay your share of the cost. This may be a copay, which is a set dollar amount. Or it may be coinsurance, which is a percent of the dentist's charge.
- Check your benefits summary so you know what you will pay.
- That's it. No deductible, no claims forms and no yearly dollar limits.

*In Illinois, the Dental DMO plan provides limited out-of-network benefits. However, in order to receive maximum benefits, members must select and have care coordinated by their PCD. In Illinois, the Dental DMO plan is not an HMO.

**Your PCD keeps a list of eligible patients that is updated monthly. Your name will appear on this list when it is updated the month after your selection. Some dentists will only treat patients whose names appear on this printed monthly roster. Once you are a member, you can call Member Services if your doctor needs to verify your eligibility.

Referrals for specialty dentists

Need a specialist? Your PCD will refer you to a dentist in the Aetna network.*

- Provide your personal information at your visit.
- Pay your share of the cost to the dentist. Your benefits summary shows you how much.
- There's usually no paperwork involved.

And no referrals for orthodontists

Is someone in the family getting braces? When you visit an orthodontist** who participates in the Aetna network, you won't need a referral. Now that's easy to use.

You'll usually save when you visit network dentists. That's because they've agreed to offer some services at special rates.

*State laws vary with regard to out-of-network benefits. Some states allow limited benefits when you go out of network for covered services. In California, your PCD may refer you to out-of-network dentists in that state. Check your plan documents for details.

**Not all plans include orthodontic care. See your plan documents for coverage details. In California, referrals to specialty care are required.

Other Important Information

This Benefit summary of the Aetna Dental Maintenance Organization (DMO®) provides information on benefits provided when services are rendered by a participating dentist. In order for a covered person to be eligible for benefits, dental services must be provided by a primary care dentist selected from the network of participating DMO dentists. Out of network benefits may apply. Please refer to your Schedule of Benefits.

Due to state law, limited (varying by state) DMO® benefits for non-emergency services rendered by non-participating providers are available for plan contracts written in: CT, IL, KY and OH and for members residing in MA and OK (regardless of contract situs state).

Specialty Referrals

"Patient Pays" applies to procedures provided by the member's Primary Care Dentist or approved specialty dentist.

Dental Benefits Summary

1. Under the DMO dental plan, services performed by specialists are eligible for coverage only when prescribed by the primary care dentist and authorized by Aetna Dental. If Aetna's payment to the specialty dentist is based on a negotiated fee, then the member's copayment for the service will be based on the same negotiated fee. If Aetna's payment is on another basis, then the copayment will be based on the dentist's usual fee for the service, reviewed by Aetna for reasonableness.

2. DMO members may visit an orthodontist without first obtaining a referral from their primary care dentist. In an effort to ease the administrative burden on both participating Aetna dentists and members, Dental has opened direct access for DMO members to orthodontic services.

Emergency Dental Care

If you need emergency dental care for the palliative treatment (pain relieving, stabilizing) of a dental emergency, you are covered 24 hours a day, 7 days a week. You should contact your Primary Care Dentist to receive treatment. If you are unable to contact your PCD, contact Member Services for assistance in locating a dentist. Refer to your plan documents for details. Subject to state requirements. Out-of-area emergency dental care may be reviewed by our dental consultants to verify appropriateness of treatment.

Your Dental Care Plan Coverage Is Subject to the Following Rules:

Replacement Rule

The replacement of; addition to; or modification of:
existing dentures;

crowns;

casts or processed restorations;

removable denture;

fixed bridgework; or

other prosthetic services

is covered only if one of the following terms is met:

The replacement or addition of teeth is required to replace one or more teeth extracted after the existing denture or bridgework was installed. This coverage must have been in force for the covered person when the extraction took place.

The existing denture, crown; cast or processed restoration, removable denture, bridgework, or other prosthetic service cannot be made serviceable, and was installed at least 5 years before its replacement.

The existing denture is an immediate temporary one to replace one or more natural teeth extracted while the person is covered, and cannot be made permanent, and replacement by a permanent denture is required. The replacement must take place within 12 months from the date of initial installation of the immediate temporary denture.

The extraction of a third molar does not qualify. Any such appliance or fixed bridge must include the replacement of an extracted tooth or teeth.

Tooth Missing But Not Replaced Rule (Does not apply to TX and CA contracts.)

Coverage for the first installation of removable dentures; fixed bridgework and other prosthetic services is subject to the requirements that such removable dentures; fixed bridgework and other prosthetic services are (i) needed to replace one or more natural teeth that were removed while this policy was in force for the covered person; and (ii) are not abutments to a partial denture; removable bridge; or fixed bridge installed during the prior 5 years.

Alternate Treatment Rule: If more than one service can be used to treat a covered person's dental condition, Aetna may decide to authorize coverage only for a less costly covered service provided that all of the following terms are met:

(a) the service must be listed on the Dental Care Schedule;

(b) the service selected must be deemed by the dental profession to be an appropriate method of treatment; and

(c) the service selected must meet broadly accepted national standards of dental practice.

If treatment is being given by a participating dental provider and the covered person asks for a more costly covered service than that for which coverage is approved, the specific copayment for such service will consist of:

(a) the copayment for the approved less costly service; plus

(b) the difference in cost between the approved less costly service and the more costly covered service.

Finding Participating Providers

Dental Benefits Summary

Consult Aetna Dental's online provider directory, DocFind®, for the most current provider listings. Participating providers are independent contractors in private practice and are neither employees nor agents of Aetna Dental or its affiliates. The availability of any particular provider cannot be guaranteed, and provider network composition is subject to change without notice. Not every provider listed in the directory will be accepting new patients. Although Aetna Dental has identified providers who were not accepting patients in our DMO plan as known to Aetna Dental at the time the provider directory was created, the status of a provider's practice may have changed. For the most current information, please contact the selected provider or Aetna Member Services at the toll-free number on your online ID card, or use our Internet-based provider directory (DocFind) available at www.aetna.com.

Specific products may not be available on both a self-funded and insured basis. The information in this document is subject to change without notice. In case of a conflict between your plan documents and this information, the plan documents will govern. In the event of a problem with coverage, members should contact Member Services at the toll-free number on their online ID cards for information on how to utilize the grievance procedure when appropriate.
