

# Fruit That Will Last:

Cultivating the Mission of Disciple-Making in Your Parish

Join us for a workshop with internationally-renowned author and speaker, Sherry Weddell, on how to move your parish out of the “business as usual” mindset and into a community that is “on fire for mission.” This workshop is designed for clergy, religious, parish councils, ministry leaders and anyone who desires to see a culture of missionary disciple-making take root in their parish.

- **Learn** how to identify where your people are in terms of their “thresholds of conversion.”
- **Hear** the characteristics of people who have stayed in the faith - especially young people!
- **Acquire** practical ways to foster an encounter with the living Christ for both active and inactive Catholics
- **Discover** practical ways to move people from habitual practice of the faith to an intentional decision to follow Jesus in the midst of his Church.
- **Explore** the new and existing tools to “tell the great story of Jesus” and how to commit to follow him. Learn how to evaluate the strengths and weaknesses of these tools.
