### The value of Vanguard Advice

#### Financial value

Investment returns can help you reach your financial goals, but they're only one piece of the puzzle. We can help you identify ways to make the most of your money—so you can more efficiently reach your short- and long-term goals.

#### Portfolio value

To find the right mix of investments for you, we first learn about your comfort with risk, your goals, and when you want to access to your money. We then stress test your mix against 10,000 market scenarios—and choose the mix that gives you the best chance for success.

#### Time value

If you sign up for money management, we'll check in on your investments every business day, and rebalance as needed. That's one less thing for you to worry about, giving you more time for the things you love!
